Purpose: To sustain the availability of banana & meet the growing demand in the province, promote livelihood & increased income of Boholano farmers & their production

Terms/condition;
The winning supplier shall provide additional 10% of the total number of tissue culture "Lakatan, Saba/Cardava" for the replacement of the projected mortality of the seedlings.

In addition, the delivered tissue culture plantlets to the Office of the Provincial Agriculturist (OPA) nursery by the winning supplier shall stay in the provincial nursery where they delivered for a period of 30 days. This inclusive date is the time for acclimatization or recovery period of the tissue culture from stress during transporting and hauling. However, during the acclimatization or recovery period of 30 days, the winning supplier may supervise the maintenance and took good care of the tissue culture. The Office (Office of the Provincial Agriculturist) shall only receive/acknowledge the tissue culture after the 30 days from the delivery or the period of acclimatization/recovery shall be completed.

Time Delivery: 45 working days upon receipt of NTP/P.O.
Place of Delivery: BOATech Center, Gabi, Ubay, Macaas Nursery, Tubigon, Balilihan Nursery
