Name of the Procuring Entity

Project Reference Number:

Name of Project: CONSULTING SERVICES FOR THE CONDUCT OF TOPOGRAPHIC AND HYDROGRAPHIC SURVEY, ASSESSMENT OF EXISTING WATER SYSTEMS OF BWSP-LGUs AND OTHER PRE-IMPLEMENTATION ACTIVITIES

Date: 11/15/22

Location of the Project: Bohol Province

PR No.

Standard Form Number: SF-GOOD-59

Revised on: May 24, 2004

Section

Standard Form Title: Purchase Request

## **PURCHASE REQUEST**

## PROVINCIAL GOVERNMENT OF BOHOL

Agency / Procuring Entity

		CONSULTING SERVICES FOR THE CONDUCT OF TOPOGRAPHIC			
		AND HYDROGRAPHIC SURVEY, ASSESSMENT OF EXISTING WATER			
		SYSTEMS OF BWSP-LGUS AND OTHER PRE-IMPLEMENTATION ACTIVITIES		ži.	
1	Set	Topographic and Hydrigraphic Map of the Project			
		Topographic survey will be done to measure horizontal distances,	1	2,600,000.00	2,600,000.00
		differences in elevations and directions of the entire pipeline network. The Hydrographic survey will be conducted to map out the riverbed topography at the point of water extraction, including its upstream and downstream profile.			
2	Set	Engineering, Geologic and Geohazard Assessment Report (EGGAR)	1	1,950,000.00	1.050.000.00
	•	EGGAR to be conducted to identify possible effects/impacts of geologic hazards and propose mitigating measures to adequately and comprehensively address such impacts.	_	1,950,000.00	1,950,000.00
3	Set	Streamflow Analysis Report including Water Quality Analysis	1	1,300,000.00	1,300,000.00
		Streamflow Investigation will be conducted to determine the estimated river discharge at the point of extraction. Projection of river discharge estimates will also have to be conducted to ensure sustainability of the water source of the Project.		2,000,000.00	1,300,000.00
4	Set	Water Permit Application Documents	1	1,040,000.00	1 040 000 00
		Prepare documents for Water Permit application, including: Brief description of proposed project, Location plan of water source and point of diversion in a map using a scale of 1:50,000, Location plan of areas to be developed indicating the layout of the proposed works, and other information as specified under Section 4, Rules and Regulation Implementing the Water Code.		1,040,000.00	1,040,000.00
5	Set	Right-of-Way Lot Plans	1	1.040.000.00	
		This is the conduct of cadastral survey to delineate the proposed transmission pipeline alignment and lot plan for the location of structures of the Project. The output of this survey are lot plans with technical descriptions derived from cadastral mother titles from various lot owners.	1	1,040,000.00	1,040,000.00
